

Editing an authenticator

Information

You can edit (re-register) an authenticator or change its comment only (if allowed by the system administrator).

To edit an authenticator, proceed as follows:

Select an authenticator in the **Authenticator management** window and click **Edit**.

Do one of the following:

To modify the comment to authenticator only, please enter new comment text into the appropriate field and click **Save**.

IID\user

INDEED ID

Authenticator management

[Re-enroll](#) →
You can edit authenticator comment:

[← Back](#)[Exit](#)

To edit an authenticator itself, click **Re-enroll**. The screen then shows the instructions on authenticator registration. The window appearance and hints' text depend on the selected authenticator type . Perform the required actions.

After the authenticator is successfully registered, click **Save**.
